

Please do not allow the weaking of Indiana's Telephone Privacy law.

Before we got on the no call list our telephone rang day and night.

Even hanging up on them does no good, they just call back, again, and again.

Please don't destroy a law that has done so much good, and given many Indiana residents peace in which to eat meals, take a bath, have family time, etc.

This law is one of the very few good things to come from our state gevernment in many years, we need this law to stay intact, and in place.

Thank you for your time.
